Document Management — Upload a Document

Upload a compliance document, link it to products, suppliers or factories, set its dates and reminders, and add compliance data.

Module	Document Management
Start here	https://qmas.icw.io/document-management → Upload
Pop-up tabs	Save To → Dates & Reminder → Compliance Data → Confirm
Checked against	QMAS dev, 4 Nov 2026

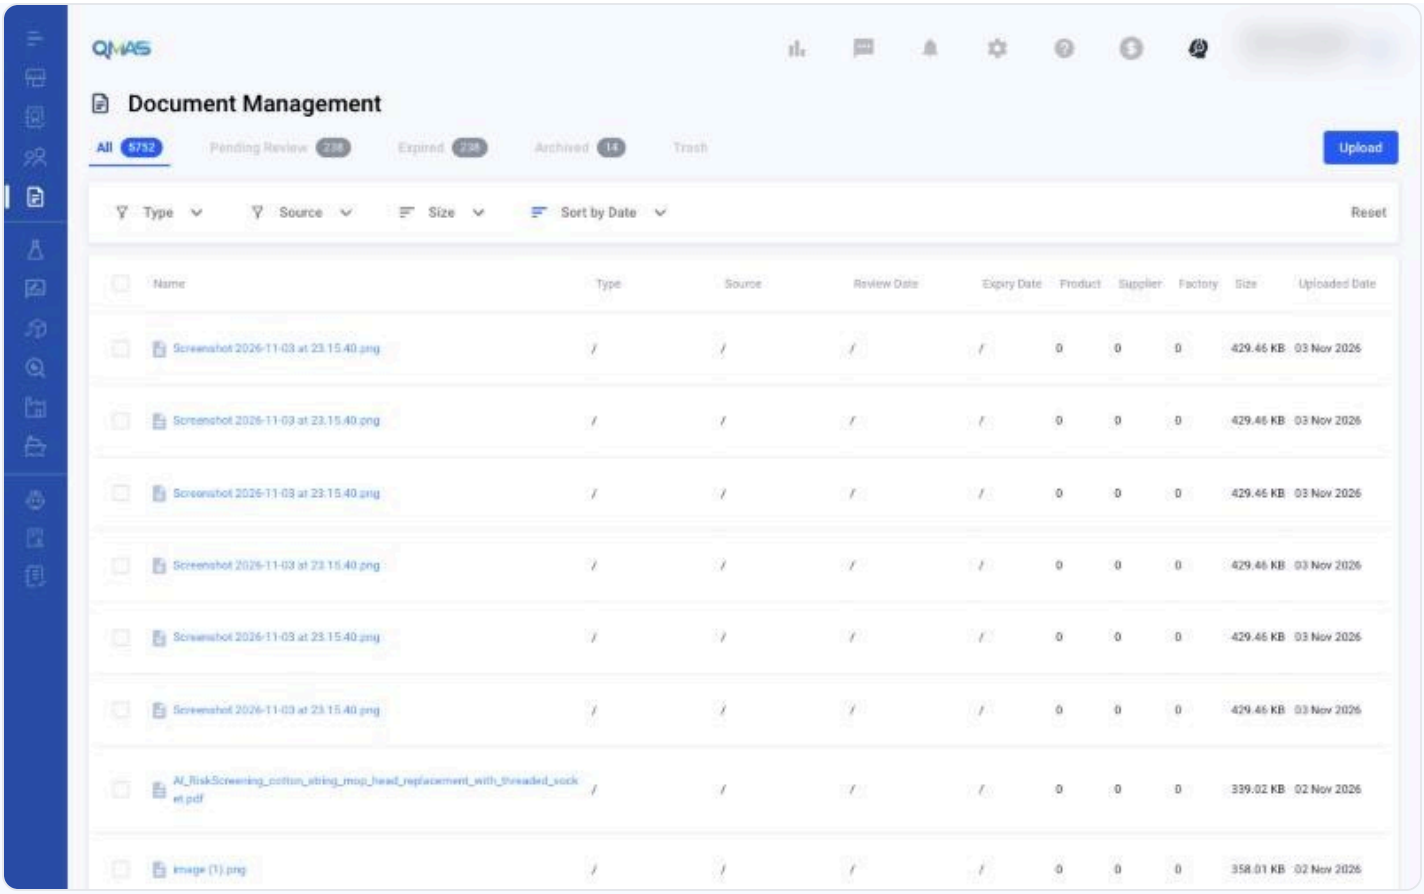

Overview

1. Open **Document Management** and click **Upload**, then choose one or more files from your computer.
2. In **Upload Document**, choose the document **Type**.
3. **Save To**: link the document to suppliers, factories or products.
4. **Dates & Reminder**: set issue, expiry and review dates and an email reminder.
5. **Compliance Data**: add test data, certificate data or other data. Click **Confirm**.

Step-by-step

1. Open Document Management

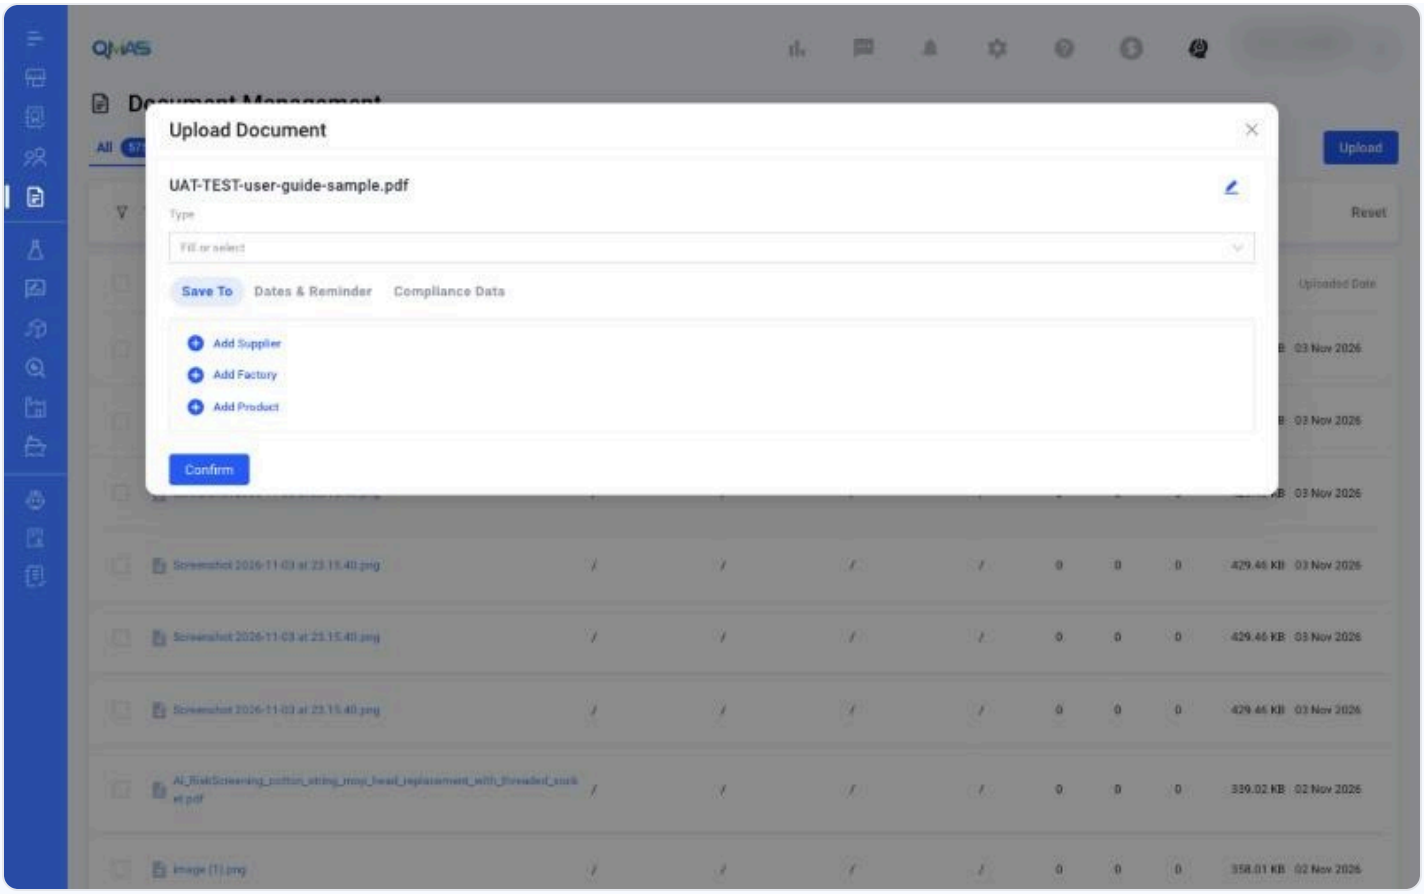

In the left menu, open **Document Management**. The tabs show **All**, **Pending Review**, **Expired**, **Archived** and **Trash** documents. Click **Upload** at the top right and choose your file.

Document Management list with the Upload button.

2. Choose the document type

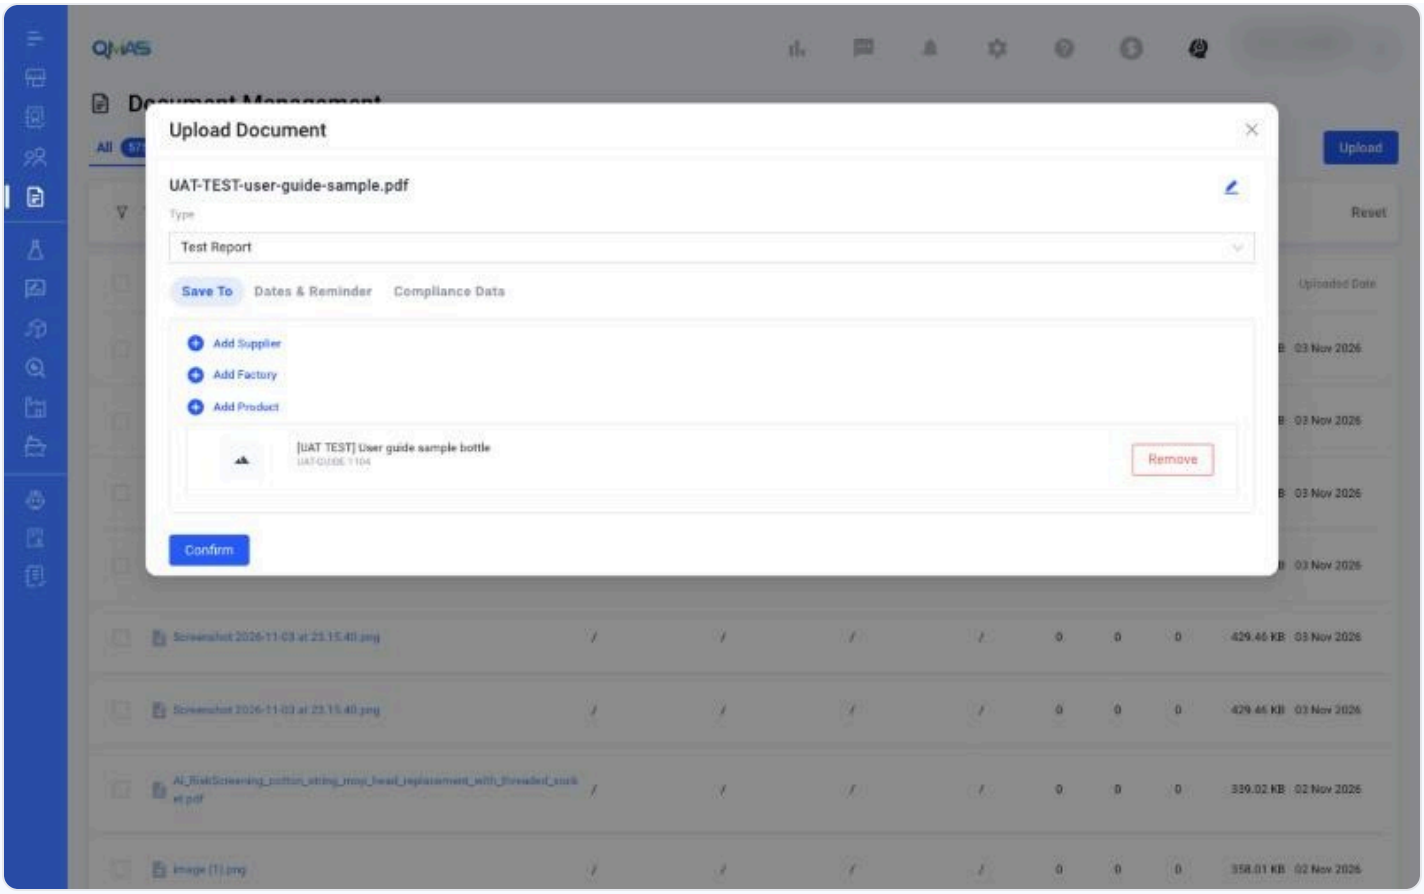

The **Upload Document** pop-up shows the file name. Click the pencil icon to rename it. Under **Type**, type or select a document type, for example **Test Report**.

Upload Document pop-up.

3. Save To — link the document

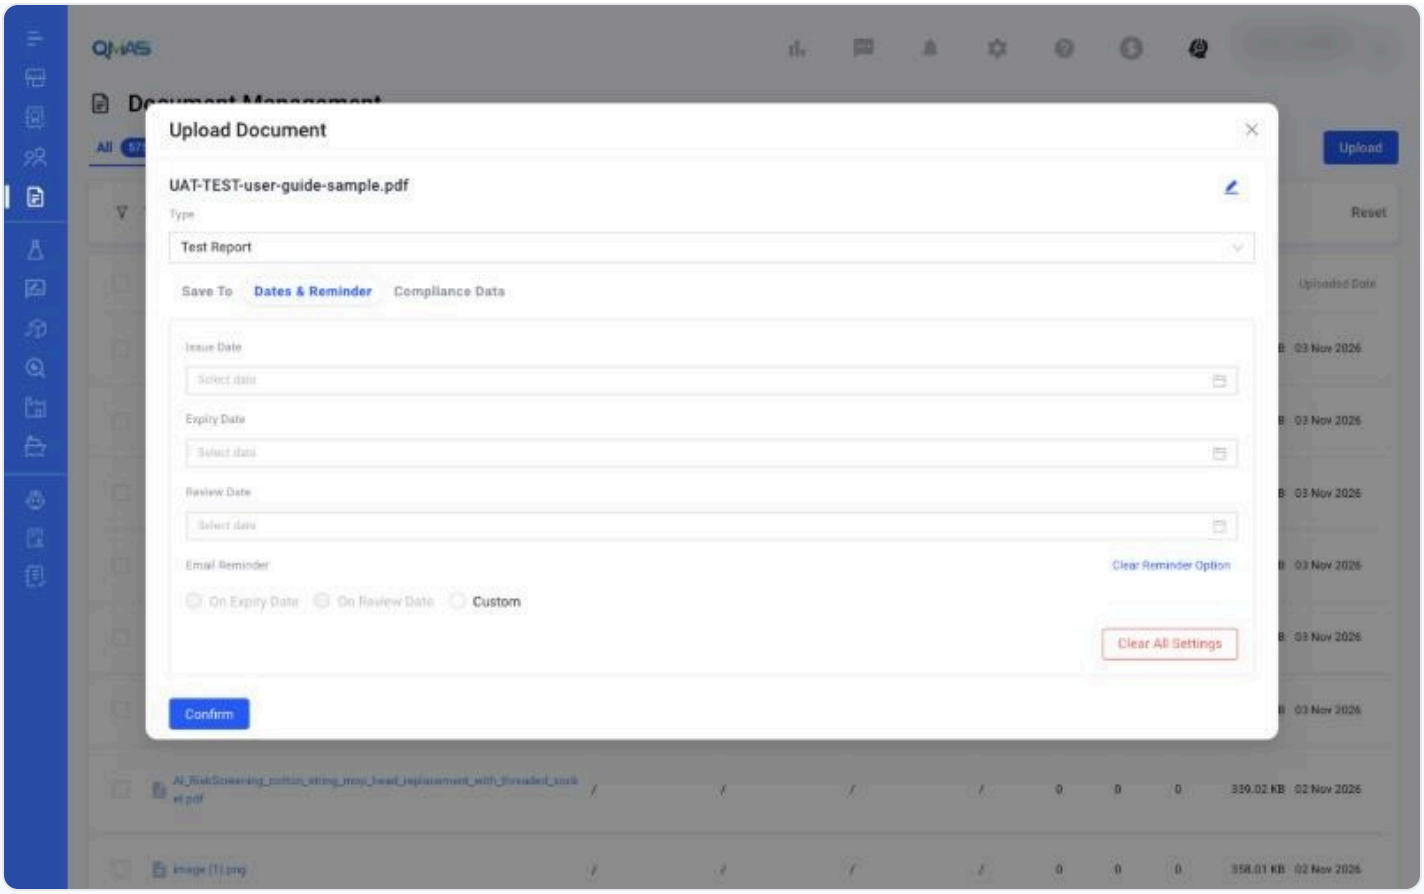

On the **Save To** tab, click **Add Supplier**, **Add Factory** or **Add Product**. Select the items in the pop-up and click **Confirm**. A document can be linked to several items. Click **Remove** to unlink one.

The document linked to a product.

4. Dates & Reminder

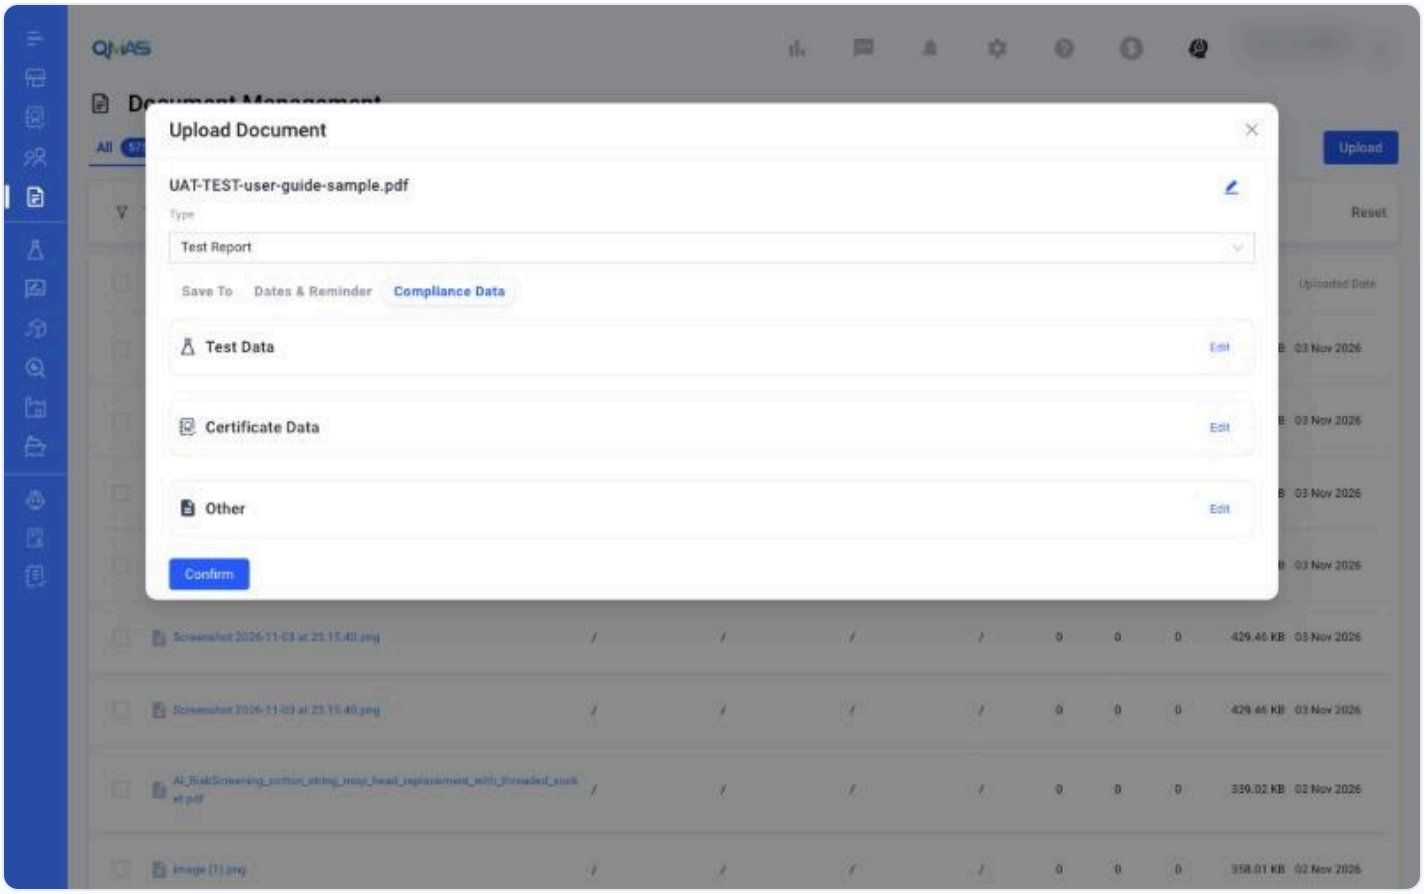

Set the **Issue Date**, **Expiry Date** and **Review Date**. Under **Email Reminder**, choose **On Expiry Date**, **On Review Date** or **Custom** to get an email reminder. Use **Clear All Settings** to start again.

Dates & Reminder tab.

5. Compliance Data

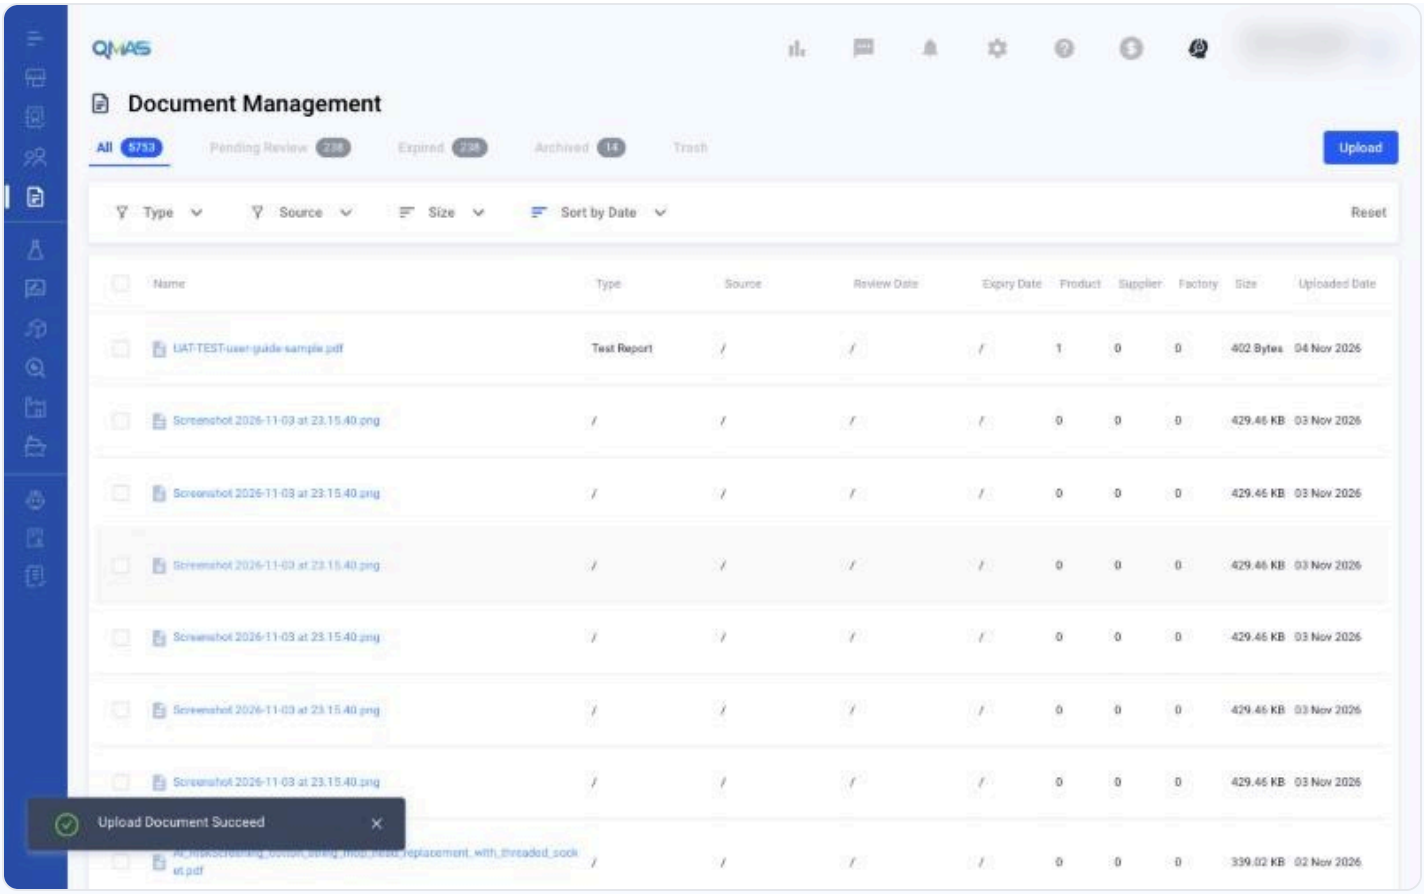

Click **Edit** next to **Test Data**, **Certificate Data** or **Other** to record the details from the document, such as test items and results or certificate numbers.

Compliance Data tab.

6. Confirm

Click **Confirm**. QMAS shows a success message and the document appears at the top of the list, with its type and the number of linked products, suppliers and factories.

The uploaded document at the top of the list.

Tips

> Set an expiry date and reminder for certificates and test reports so you know before they expire.

> You can also upload documents from a product, supplier or factory profile.

FAQ

How do I upload a document?

Go to Document Management (https://qmas.icw.io/document-management), click Upload, choose the file, set the Type, link it under Save To, then click Confirm.

How do I get a reminder before a document expires?

In the Upload Document pop-up, open Dates & Reminder, set the Expiry Date, then choose an Email Reminder option.

Where can I see expired documents?

Open the Expired tab in Document Management.
