Internal QC Inspection — Start an Internal Inspection

Schedule an inspection that your own QC team carries out, without a third-party provider.

Module	Internal QC Inspection
Start here	https://qmas.icw.io/inspection/internal/list → Create Job
Direct link	https://qmas.icw.io/inspection/jobs/new?type=internalInspection
Steps	1 Inspection Requirement → 2 Report Details → 3 Supplier & Factory → 4 Additional Information → 5 Review & Submit
Checked against	QMAS dev, 4 Nov 2026

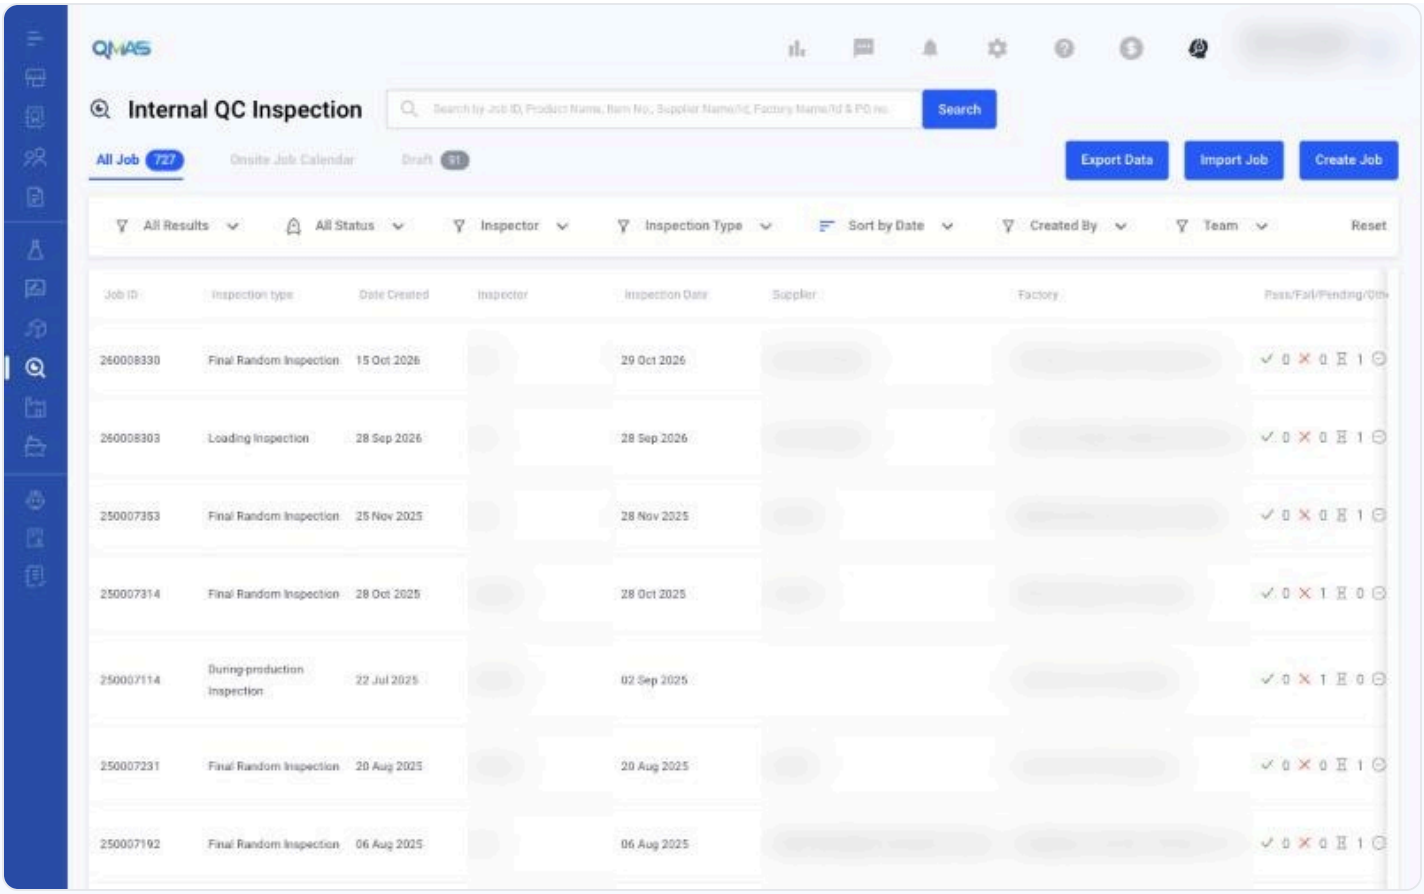

Overview

1. Open **Internal QC Inspection** and click **Create Job**. **Start internal inspection** is already selected. Click **Continue**.
2. **Inspection Requirement**: date, type, level and AQL.
3. **Report Details**, **Supplier & Factory** and **Additional Information** work the same way as in the QC Inspection quote flow.
4. **Review & Submit**: check everything and click **Submit**.

Step-by-step

1. Open Internal QC Inspection

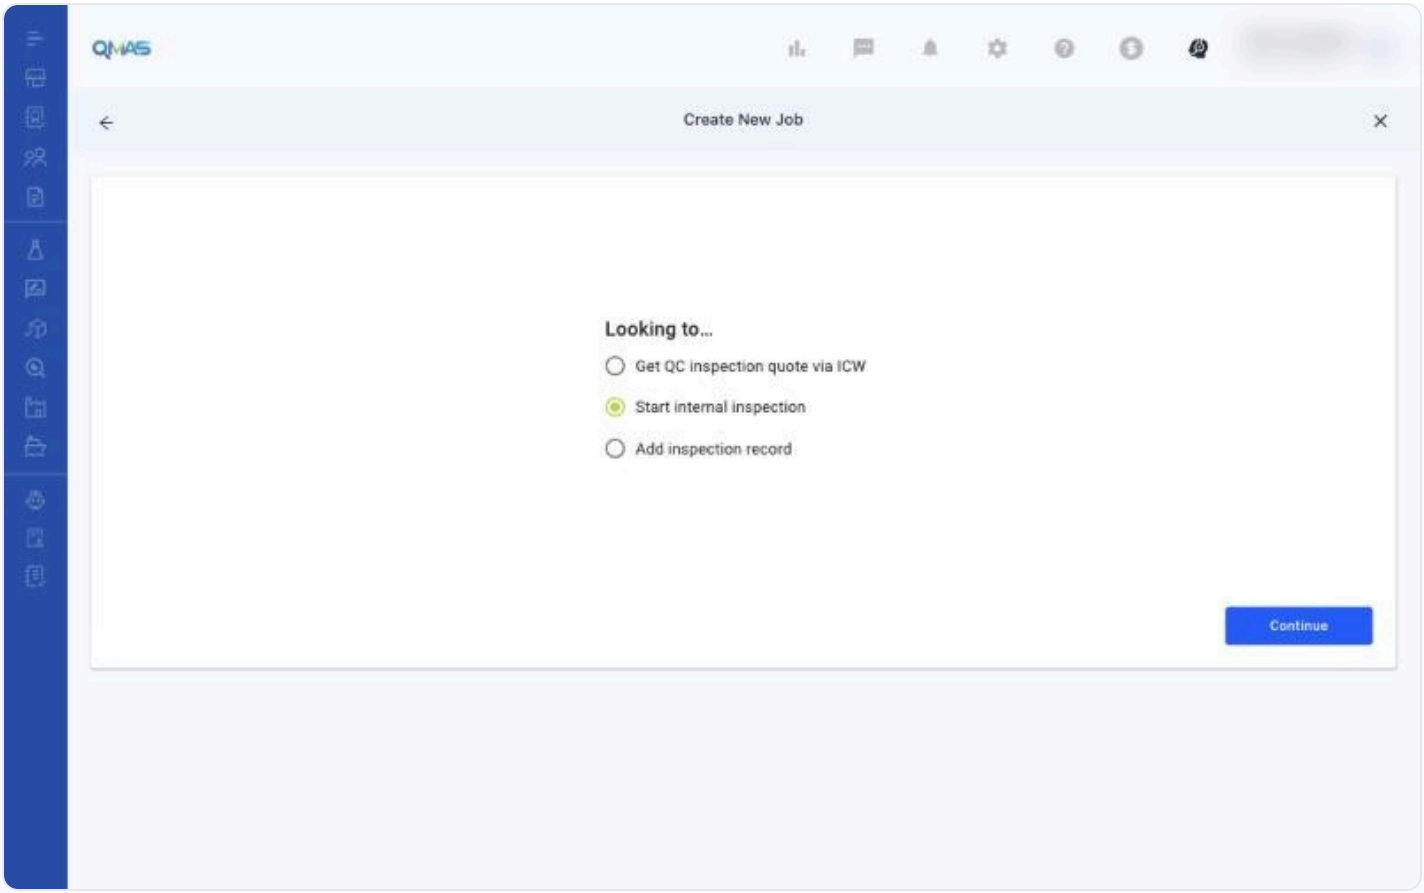

In the left menu, open **Internal QC Inspection**. The tabs show **All Job**, **Onsite Job Calendar** and **Draft**. Click **Create Job**. To add many jobs at once, use **Import Job**.

Internal QC Inspection list with Import Job and Create Job.

2. Start internal inspection

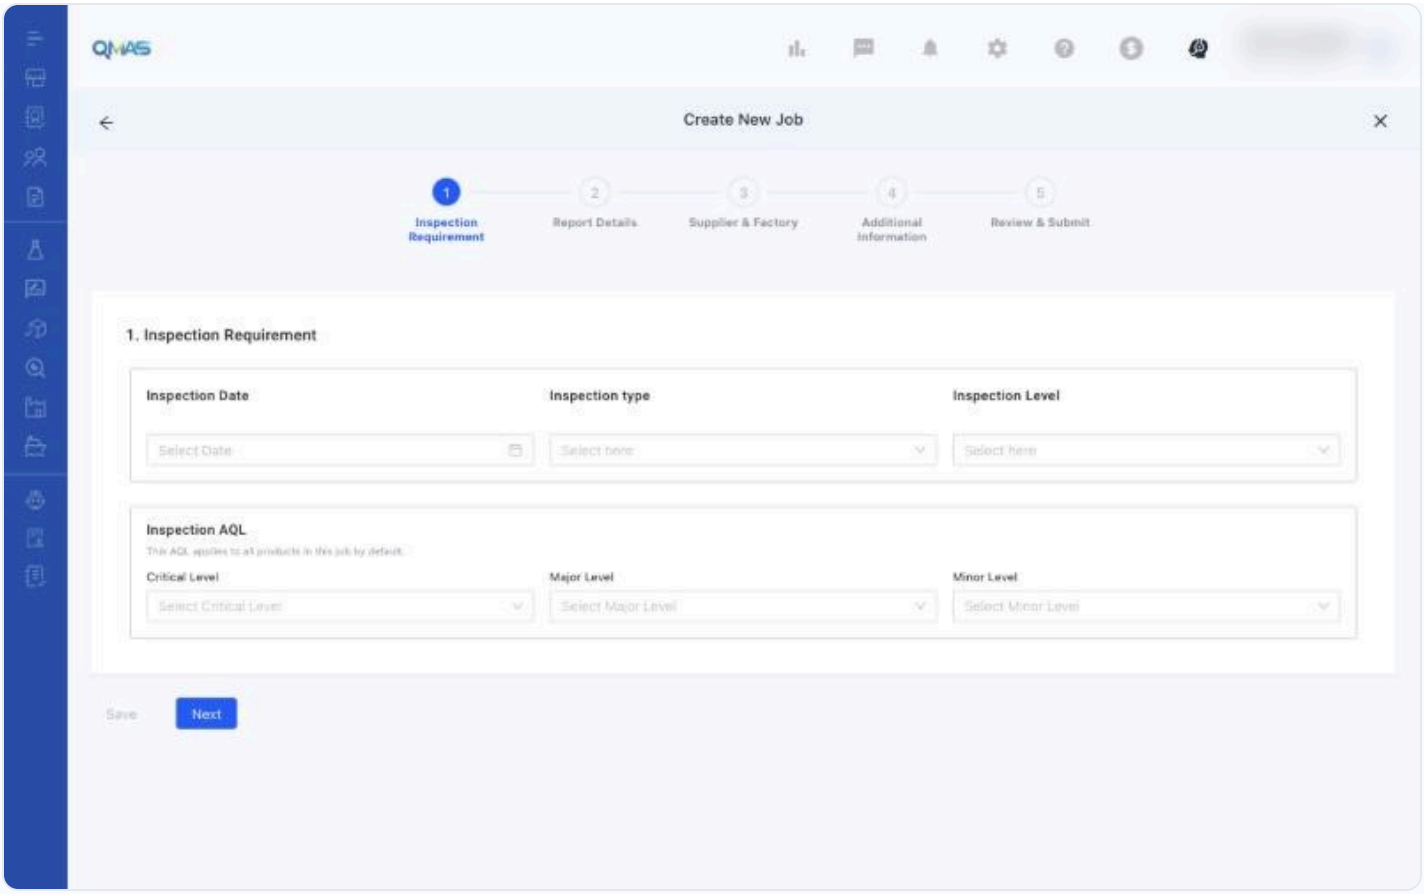

Start internal inspection is selected. Click **Continue**.

Create New Job — Start internal inspection selected.

3. Inspection Requirement

Choose the **Inspection Date**, **Inspection type**, **Inspection Level** and the **AQL** (Critical, Major, Minor). There is no budget or service provider, because your own team does the inspection. Click **Next**.

Step 1 Inspection Requirement for an internal inspection.

4. Steps 2–5

The next steps are the same as in the QC Inspection quote flow. See https://marconip2026.github.io/qmas-user-guide/qc-inspection/ for screenshots.

- **Report Details**: add products and their POs.
- **Supplier & Factory**: select the supplier and the factory to inspect.
- **Additional Information**: upload reference files and add remarks.
- **Review & Submit**: check the summary, then click **Submit**. The job opens with its Job ID.

Tips

> If you need a third-party inspector instead, use QC Inspection → Create Job → **Get QC inspection quote via ICW**.

> Click **Save** on any step to keep a draft.

FAQ

How do I start an internal inspection?

Go to Internal QC Inspection (https://qmas.icw.io/inspection/internal/list), click Create Job, keep Start internal inspection selected, click Continue and complete the 5 steps. Direct link: https://qmas.icw.io/inspection/jobs/new?type=internalInspection

Can I import internal inspection jobs?

Yes. Click Import Job on the Internal QC Inspection list.
